

Please join us for the

Triad Regional Mobile CARE meeting!

Tuesday April 1, 2014 from 2:00 PM to 4:15 PM

Piedmont Triad Regional Council • 1398 Carrollton Crossing Drive Kernersville, NC 27284

For more information, or to RSVP, contact Elizabeth Jernigan: 336.904.0300 or ejernigan@ptrc.org

The NC Mobile CARE meeting will be an opportunity to exchange information and learn about alternative fuel and advanced transportation technologies that can reduce harmful emissions, support energy diversity and enhance the local economy in the Piedmont Triad region.

- 2:00 - 2:15 Introduction
- 2:30 - 3:30 Eco-Driving Workshop: Learn how to “Drive Green, Save Green” with class room instruction and hands on driving experience.
- 3:30 - 3:50 Telematics Discussion: Save fuel while improving productivity and safety.
- 3:50 - 4:00 NC Solar Center Update
- 4:00 - 4:15 Piedmont Together: How Transportation & Air Quality Impact the Future of our Region

The Clean Fuel Advanced Technology (CFAT) project is focused on reducing transportation related emissions in NC counties that have air quality concerns. The 2013 to 2015 project is funded by the N.C. Department of Transportation and covers three broad areas: education and outreach, project funding, and recognition of exemplary activities (Mobile CARE).

The N.C. Solar Center Clean Transportation program has teamed up with the Centralina Clean Fuels Coalition, the Triangle Clean Cities Coalition and other North Carolina partners on education and outreach activities. These partners are available to speak about clean transportation technologies and practices at local events.
