ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Pleasant Garden town, North Carolina				
	Estimate	Margin of Error	Percent	Percent Margin of Error	
EX AND AGE				LITOI	
Total population	4,762	+/-22	4,762	(X)	
Male	2,229	+/-184	46.8%	+/-3.9	
Female	2,533	+/-186	53.2%	+/-3.9	
Sex ratio (males per 100 females)	88.0	+/-13.8	(X)	(X)	
Under 5 years	352	+/-167	7.4%	+/-3.5	
5 to 9 years	253	+/-102	5.3%	+/-2.2	
10 to 14 years	292	+/-113	6.1%	+/-2.4	
15 to 19 years	295	+/-102	6.2%	+/-2.1	
20 to 24 years	218	+/-194	4.6%	+/-4.1	
25 to 34 years	406	+/-123	8.5%	+/-2.6	
35 to 44 years	542	+/-129	11.4%	+/-2.7	
45 to 54 years	704	+/-186	14.8%	+/-3.9	
55 to 59 years	180	+/-80	3.8%	+/-1.7	
60 to 64 years	359	+/-108	7.5%	+/-2.3	
65 to 74 years	440	+/-139	9.2%	+/-2.9	
75 to 84 years	399	+/-135	8.4%	+/-2.8	
85 years and over	322	+/-321	6.8%	+/-6.7	
Median age (years)	45.2	+/-5.1	(X)	(X)	
Under 18 years	1,104	+/-209	23.2%	+/-4.4	
16 years and over	3,762	+/-214	79.0%	+/-4.5	
18 years and over	3,658	+/-209	76.8%	+/-4.4	
21 years and over	3,570	+/-209	75.0%	+/-4.4	
62 years and over	1,406	+/-393	29.5%	+/-8.2	
65 years and over	1,161	+/-392	24.4%	+/-8.2	
18 years and over	3,658	+/-209	3,658	(X)	
Male	1,565	+/-198	42.8%	+/-5.5	
Female	2,093	+/-256	57.2%	+/-5.5	
Sex ratio (males per 100 females)	74.8	+/-16.7	(X)	(X)

Total housing units	1,830	+/-224	(X)	(X)	
CITIZEN, VOTING AGE POPULATION					
Citizen, 18 and over population	3,517	+/-238	3,517	(X)	
Male	1,537	+/-201	43.7%	+/-5.8	
Female	1,980	+/-272	56.3%	+/-5.8	

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

- 1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- 2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
 - 3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
 - 4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- 6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- 7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
 - 8. An '(X)' means that the estimate is not applicable or not available.
