Welcome and Ethics Statement

Steve Yokeley opened the meeting and read the ethics statement. Kevin Austin stated he had a conflict of interest on matters pertaining to project H11145 and would abstain from voting on matters pertaining to that project. There were no other conflicts of interest.

Presentation

I. *P5.0 Update*

Elizabeth Jernigan presented a Powerpoint prepared by Diane Hampton, Division 9 on P5.0. The presentation provided an overview of the 10-year STIP, STI law, P5.0 scoring, the scoring and programming process, and the number of project submittals and points available to the NWPRPO.

Action Items

II. *TAC Minutes – June 21st, 2017*

Commissioner Yokeley asked if committee members had a chance to review minutes from the last meeting and asked for a motion to approve the minutes. Kevin Austin stated he was present at the

last meeting. Wayne Moore made a motion to approve the minutes with the revision of adding Commissioner Austin to the list of attendees. Commissioner Austin seconded the motion. All were in favor.

III. Prioritization 5.0 Highway Project Submission List

Ms. Jernigan presented and reviewed priority projects as identified by the TCC. TAC members agreed to recommend the attached highway projects to the TAC for submission in P5.0 with the exception of a project to build a new interchange connecting 268 and I-77 in Elkin. TAC members requested the NWPRPO and NCDOT Division 11 evaluate and either re-submit H150534 (Widen Existing Roadway and Construct Part on New Location – from Johnson Ridge Road to NC 67) as it was originally submitted in P4.0, or as a standalone bridge project connecting NC 268 and NC 67. Commissioner Moore made a motion to adopt the attached list of highway projects. Ernest Lankford seconded the motion. Commissioner Austin refrained from voting. All were in favor.

IV. Prioritization 5.0 Bike/Ped Project Submission List

Ms. Jernigan presented a list of bicycle and pedestrian projects for review. She stated the number of projects did not exceed the limit of 21 and all projects identified would be entered for scoring. Commissioner Austin made a motion to adopt the attached list of bicycle and pedestrian projects for submission in P5.0. Commissioner Moore seconded the motion. All were in favor.

V. Prioritization 5.0 Bike/Ped Project Submission List

Ms. Jernigan presented a list of potential airport projects provided by George Crater in Elkin. Ms. Jernigan asked if Surry County anticipated submitting any projects for funding. Commissioner Phillips stated they may submit a couple projects. Ms. Jernigan requested TAC action to allow each airport to submit up to 10 projects for P5.0 in order to give the RPO more time to work with airport engineers and NCDOT aviation staff to finalize a project list. Bonnie made a motion to allow each airport to submit up to 10 projects for P5.0. Tommy Wheeler seconded the motion. All were in favor.

VI. P5.0 Division Needs Alternative Criteria

At the request of NCDOT Division 11, Ms. Jernigan recommended the NWPRPO support Division 11 in the use of alternate criteria at the division level during the SPOT 5.0 prioritization process. Ms. Jernigan evaluated project scores in the previous round of prioritization as well as by project type and supports transfer of 5% from freight at the division level to safety. Mr. Pettyjohn stated NCDOT does not collect freight data on state routes and therefore, most of those projects would receive zero points at the division level. Action was recommended by the TCC. Commissioner Lasky made a motion to recommend transferring 5% from freight to safety at the division level. Commissioner Phillips seconded the motion. All were in favor.

Discussion Items

VII. *Methodology Review*

Ms. Jernigan provided a brief overview of an independent process verification conducted by Cambridge Systematics of the local input point methodologies and assignment process used in P4.0 for MPOs, RPOs and Division Engineers. She noted there were no significant findings, however we will need to do a better job ensuring project data is available on the NWPRPO website. There may also be changes in the way we format our methodology to be more consistent across the state.

VIII. *FY 2018-2027 STIP*

Ms. Jernigan stated the Final 2018-2027 STIP was available and FHWA was expected to approve it.

Informational Items

IX. *Division 9 Updates*

Marcus Kiser stated he had no updates but was available for questions regarding specific projects.

X. *Division 11 Updates*

Mike Pettyjohn presented updates for Division 11.

XI. *TPB Update*

Ms. Jernigan briefly stated future CTPs would be formatted differently and Davie and Surry were next up for CTPs.

XII. *RPO Updates*

Ms. Jernigan stated YVEDDI would be having public outreach meetings for circular routes in Mocksville and Stokes County. Those meeting dates are as follows:

- **Mocksville**

August 31st, 2017: 4pm – 6pm

Davie County Public Library

371 N. Main St., Mocksville

- **Stokes**

September 7, 2017: 4pm – 6pm

King Public Library

101 Pilot View Dr., King

Ms. Jernigan also summarized “Crime Prevention through Environmental Design” training held at PTRC and recommended TCC members consider attending, or having someone from their county or municipality attend.

New Business

TAC Members

There was no new business.

Adjournment

Steve Yokeley

Commissioner Yokeley asked for a motion to adjourn. Ernest Lankford made a motion to adjourn. Commissioner Moore seconded the motion. All were in favor.

Agenda Item II.

Bike/Ped Planning Grant Resolution of Support (Davie)

Background

The NCDOT Division of Bicycle and Pedestrian Transportation and the Transportation Planning Branch created an annual matching grant program – the Bicycle and Pedestrian Planning Grant Initiative – to encourage municipalities to develop comprehensive bicycle plans and pedestrian plans. This program was initiated in January 2004 and is currently administered through NCDOT-DBPT.

The Planning Grant Initiative has been successful in its fourteen years - since 2004, 183 planning grants have been awarded. To date, a total of approximately \$5.0 million has been allocated to 181 municipalities and two counties through this grant program.

A resolution by the local RPO is required. Davie County is requesting support from the NWRPO for a joint Bicycle and Pedestrian Planning Grant.

Action Requested

Adopt Resolution of Support

**RESOLUTION
ENDORING THE APPLICATION FOR
BICYCLE AND PEDESTRIAN PLANNING GRANT FUNDS
BY DAVIE COUNTY**

A motion was made by _____ and seconded by _____ for the adoption of the following resolution and upon being put to a vote was duly adopted.

WHEREAS, the Transportation Advisory Committee is the duly recognized transportation decision making body for the Northwest Piedmont Rural Planning Organization, as authorized under NCGS 136-211; and

WHEREAS, the North Carolina Department of Transportation has established a Bicycle and Pedestrian Planning Grant which provides funding to projects that will result in comprehensive local bicycle and pedestrian transportation plans; and

WHEREAS, Davie County is applying for funding from the Department of Transportation for a comprehensive bicycle and pedestrian plan; and

WHEREAS, the Transportation Advisory Committee of the NWPRPO finds it to be in the interest of the RPO to endorse said project;

NOW THEREFORE, BE IT RESOLVED that the Northwest Piedmont Rural Planning Organization Transportation Advisory Committee hereby endorses the planning project proposed by the County and if the project is selected, will provide technical assistance for the duration of the project.

Adopted on this, the 18th day of October, 2017.

Agenda Item V.

High Impact/Low Cost Program

Background

As part of Senate Bill 257, “Current Operations Appropriations Act of 2017”, Section 34.7.(c) High-Impact and Low-Cost Projects, NCDOT has been tasked to develop a quantitative, evidence-based formula to use in selecting projects to receive funding under this program. As part of this formula, please see the attached 12 criteria that can be used in the formula to identify candidate projects under this program.

Each of the Department’s 14 Divisions is tasked to identify their respective project scoring criteria selections (a minimum of 7) by no later than December 1, 2017. Please review the attached criteria and provide any comments to division staff by October 20, 2017 and be prepared to discuss any candidate projects.

Action Requested

Review attached project scoring criteria selections and consider projects in your area which may be good candidate projects.

High Impact/Low Cost Project Selection Criteria					
	% Weight	0 points	1 point	2 points	
Traffic Volume					
Current Volume/AADT		750 or less	751 to 1499	1500 or more	Use most recent AADT Map volume or other available traffic volume count
Traffic Restrictions					
Number of Restrictions		no restrictions	1 restriction	2 or more	Restriction types could include weight postings (roads and/or bridges), lane width postings, no truck/limited truck access, light traffic ordinances, or other local restrictions identified by the Divisions/local governments
Safety					
Accident rate		below avg for type of road	within 10% of avg	> 10% above avg	provided by mobility and safety
Roadway Characteristics					
existing lane width		standard width or above		below standard	NCDOT/AASHTO Design Guidelines
existing shoulder width		standard width or above		below standard	NCDOT/AASHTO Design Guidelines
pavement condition score		80>100	70>=80	>=70	use most recent pavement condition survey score
stopping sight distance		495 ft or more	251 ft to 494 ft	250 ft or less	NCDOT/AASHTO Design Guidelines
intersection turning radius		standard radius or above		below standard	NCDOT/AASHTO Design Guidelines
Level of Service (LOS)					
LOS Improvement		1 letter grade	2 letter grades	3 letter grades or more	Intersection LOS improvements may be measured for overall intersection or individual approach improvements (up to two approaches)
Multimodal Benefits					
Non-Highway modal components included in project		no non-highway benefits		includes benefits to at least one non-highway mode	Determined by Divisions
Other Funding Availability					
Other Funding Availability		no other funding	1% to 19.99%	20% or above	Other funding sources are available to offset project costs. Other sources can include other highway funded program dollars (contingency, economic development, small construction, etc.) or local funding participation. With the exception of trust fund economic development projects, STI funds should not be considered.
County Economic Well Being (NC Dept of Commerce County Tier Designation)					
County Tier Designation		Tier 3	Tier 2	Tier 1	Based on current county tier designation as identified by the North Carolina Department of Commerce: Tier 1: 40 most distressed counties Tier 2: Next 40 distressed counties Tier 3: 20 least distressed counties
Total:	0	% weights for the scoring criteria selected must total to 100%			

* Division Engineers, in conjunction with their partnering MPOs and RPOs, shall select a minimum of 7 criteria to be used in evaluating projects within their Division based on regional/local needs and priorities.

* If desired, Division Engineers, with concurrence from each of their partnering MPOs and RPOs, may develop additional scoring criteria beyond those provided in the above list. Any new criteria shall include metrics for scoring on the established 0 to 2 point scale.

* Division Engineers shall determine the appropriate scoring weights for each of the criteria selected based on regional/local needs. Scoring weights must add up to 100%.

* Projects must receive at least half of the total possible scoring points to be considered for funding.

* For those projects meeting the minimum threshold for funding consideration, Division Engineers, in conjunction with their partnering MPOs and RPOs, shall determine which projects are funded based on local priorities and budgetary constraints with priority consideration given to projects that promote job creation and economic growth.

* Projects funded through this program, unless otherwise approved by the Secretary of Transportation, are expected to be under construction (contracts awarded) within 12 months of funding approval by the Board of Transportation (Board Agenda Item H).

* High Impact/Low Cost project funding share shall not exceed \$1.5M on any single project unless otherwise approved by the Secretary of Transportation.

* Any project exceeding \$250k total project cost (all funding sources) will require resolution of support from the appropriate local government agency prior to authorization of funding.

Agenda Item VI.

Prioritization 5.0 Update

Background

Please review attached project submittals and timeline. Next steps include:

- Submit LIP Methodology revisions, if any (approved by April 1st, 2018)
- Assign Local Input Points for Regional Impact projects (Spring 2018)
 - 1300 points (100 point max per project per STI category)
- Assign Local Input Points for Division Needs projects (Fall 2018)

Powell Bill Program Allocations

Background

Annually, State street-aid (Powell Bill) allocations are made to incorporated municipalities that establish their eligibility and quality as provided by G.S. 136-41.1 through 136-41.4. The general statutes require that an appropriation of funds by the General Assembly to the Department of Transportation for State aid to the municipalities from the State Highway Fund. These funds are distributed to the qualified municipalities in two allocations on or before October 1 and on or before January 1, and are to be expended primarily for the purposes of resurfacing streets within the corporate limits of the municipality but may also be used for maintaining, repairing, constructing, reconstructing or widening of local streets that are the responsibility of the municipalities.

Each municipality establishes its eligibility annually by submitting to the Department of Transportation a Certified Statement and a Certified Powell Bill Map. Each municipality is statutorily required to submit a final statement of revenues and expenditures for the preceding fiscal year.

The first State street-aid allocation was disbursed in 1951 at a rate of one-half cent per gallon of taxed motor fuel and continued annually at that rate through 1971. The general statutes were amended and the rate changed in 1972 and in 1982. From 1972 through 1981, the rate was one cent per gallon. In 1982, it was increased to 1-3/8 cents per gallon. The 1986 General Assembly increased the State Motor Fuel Tax effective July 15, 1986, and at the same time increased the Powell Bill rate to 1-3/4 cents on each taxed gallon. This rate became effective for the 1987 allocation. The 2013 General Assembly revised the annual amount appropriated out of the State Highway Fund to a sum equal to 10.4% of the net amount after refunds that was produced during the fiscal year. This rate became effective for the 2013 allocation. The 2015 General Assembly ratified the statute by appropriating the amount of funds to be disbursed.

Background

Triad Tomorrow Summit

Please join us for the first Piedmont Triad Tomorrow Summit being held November 8th 2017 at the Bridger Field House at Wake Forest University. Register today to learn from keynote speaker Roger Brooks of Roger Brooks International - the leading community branding, development and marketing firm in the United States, on how to revitalize your downtown and grow your economy. Visit www.rogerbrooksinternational.com to learn more. More speakers and a detailed conference agenda to be announced. Elected officials, city and county managers, community and business leaders, local and regional planners, and regional economic developers are encouraged to attend the one day event.

Piedmont Legacy Trails

The Piedmont Land Conservancy (PLC) and the Piedmont Triad Regional Council (PTRC) along with representatives from surrounding counties have collaborated to establish Piedmont Legacy Trails to help brand the Piedmont Triad as a trails destination. The Piedmont Trails Council will support greenways, trails, and blueways (river trails) throughout 12 Piedmont Triad counties.
